Private 1-to-1 French Tutoring in the Greater Boston Area

Toujour en Francais!

Bienvenue! I am Svetlana and I have been tutoring French for 25 years. I offer customized, private French lessons in the Greater Boston Area for students at every level - beginner, intermediate, and advanced. My lessons are personalized and I pay my utmost attention to the particular objectives of each student.

I am a French language teacher by training and after having received my Master's degree in Education, I have been teaching French in various universities and colleges and have been offering private lessons.

Why am I different?

Many native speaking students from France offer French tutoring around Boston. What sets me apart from most of these tutors is my professional training as a language teacher. As an educator, I employ accurate teaching methods necessary for learning grammatical structure, phonetics, conversation, reading, writing, and comprehension. And, I know how to make the learning experience fun! Using my 25 years of expertise, students come away from my personalized lessons firmly ensconced in French and fully prepared to move onto the next level.

My method for teaching is 1-to-1 customized lesson plans that focus on the particular needs and levels of each student learning French. This approach allows the student to overcome any obstacles they may have with learning a foreign language. In my private tutoring sessions, I work closely with each student and quickly determine needed areas for improvement with French. Private instructions with a professionally trained teacher focus on the student's specific goals, ease concerns, and makes learning quicker and enjoyable!

Merci! May you derive as much pleasure speaking this beautiful language as I. Bonne chance!
